PROGRAM GENERAL DESCRIPTION

The Purpose of the Housing Choice Voucher (HCV) program is to provide rental assistance to eligible low-income families. The HCV program allows families to choose housing in the private rental market. The family pays a portion of their income for rent and the East Peoria Housing Authority (EPHA) pays a portion of the rent. The U. S Department of Housing and Urban Development (HUD) establish guidelines for agencies to establish rules and regulations for the program.

TO BE SUCCESSFUL IN
THE PROGRAM, IT IS
IMPORTANT THAT EACH
PARTY UNDERSTANDS
HOW THE PROGRAM
WORKS AND THE
RIGHTS AND
RESPONSIBILITIES OF ALL
PARTIES INVOLVED!!

WHAT YOU SHOULD KNOW

It is imperative for families and owners participating in the Housing Choice Voucher Program to maintain the same relationship as they would in the unassisted rental market. The Housing Authority does not select families for owners, and does not provide legal advice to families or owners and does not participate in the termination process for either party. The role of the Housing authority is to assist income eligible households with their monthly rent payment.

OWNER FAMILY SELECTION

Owners should follow the same set of standards for selecting HCV families as they would for selecting families from the open market. The owner is responsible for screening the HCV family; the EPHA does not play a role in family selection. The EPHA determines the family's eligibility for rent subsidy based solely on family income and composition.

LEASING STEPS

Once the family has attended our New Tenant Orientation Briefing they will locate their own suitable housing. The following steps explain the leasing process:

- 1) Complete the Request for Tenancy Approval (RFTA): each family is provided a RFTA to locate suitable housing within our jurisdiction. The client should present the RFTA to the landlord to complete and either party can return the completed form to our agency. The completed RFTA is an indication of the owner-family intentions to enter into a rental agreement. It is not binding. Submittal is a pre-requisite to requesting a unit Inspection.
- 2) Rent Calculation: Once the RFTA is received by our agency an affordability check will be completed to ensure that the requested unit is affordable for the prospective client.

RENT CALCULATION EXAMPLE"

A. Contract Rent	1,200.00
B. Utility Allowance	144.00
C. Grose Rent (A+B)	1,344.00
D. Payment Standard	1,326.00
E. Lower of C or D	1,326.00
F. Family 30% of MAI	300.00
G. HAP Payment (F-E)	1,026.00
H. Family Rent (G-A)	174.00
I. Family Share of Rent (H+B)	318.00
J. Family 40% of MAI	400.00

(if line I is more than line J, family share is too high. Landlord must agree to lower rent or family needs to find another unit)

The HAP and the family's portion of monthly rent are subject to a Rent Reasonableness test to ensure rent is both consistent with similar units in the area and comparable units in the same complex.

*HAP=Housing Assistance Payment

CALCULATING RENT

The EPHA must ensure that the rent requested by the owner is reasonable. (rent is not more than rent charged for comparable units in the private unassisted market) The EPHA's portion of the rent payment is a predetermined Payment Standard for the unit size, less 30% of the families net adjusted income. The family pays the difference between the EPHA portion and the requested contract rent.

However, whenever a family moves to a new unit, the family share of rent cannot exceed 40% of their monthly adjusted income for the initial term of the lease. After the first term of the lease, the landlord may request an increase in the contract rent.

PLEASE NOTE: It is illegal for a landlord to charge more to our clients than what they have advertised to the general public.

PAYMENT STANDARDS (PS)

Effective 11/1/2018 the EPHA raised the Payment Standards to 100% of the Fair Market Rents. Current Payment Standards are based on bedroom size and include a utility allowance (Exhibit)

Current PS are as follows:

Bdrn Size	PS
0 bed	\$573.00
2 bed	\$629.00
2 bed	\$798.00
3 bed	\$1022.00
4 bed	\$1151.00
5 bed	\$1324.00

LEASING STEPS CONTINUED

3. **Completing an Inspection:** Prior to approving a unit for admission into the HCV Program, it must be inspected to determine that it meets minimum Housing Quality Standards (HQS). Once the Affordability process is completed by EPHA staff, the owner will be contacted to schedule a unit inspection. The EPHA will inspect vacant units when all utilities are on; gas, electricity and water. For occupied units, the EPHA requires the head of household or designated representative of the family who is not a minor to be present. It is strongly recommended for both the landlord and tenant to be present during the inspection but it is not required. Should the inspection fail a letter will be mailed to the landlord listing the deficiencies. The family should contact the landlord for specific information regarding repairs. Once the owner/landlord has made the needed repairs a follow-up inspection will be scheduled.
- 4) **Housing Assistance Payment Contract & Owner/Family Lease:** After the unit has passed the HQS inspection, the EPHA will execute a Housing Assistance Payment (HAP) Contract. The HAP Contract is an agreement between the EPHA and the owner and sets forth the terms and conditions for the payment of rental assistance on behalf of the family. The owner/landlord has the option to use the EPHA standard lease or they can use their own standard lease. Should the owner/landlord choose to use their own lease, a blank copy needs to be submitted to our office along with the RFTA for review. In addition, a HUD Tenancy Addendum must be made a part of the owner/family lease.

ADDITIONAL INFORMATION:

Term of the Lease: the initial term of the lease is for 1 year. During the initial term of the lease, the owner may not raise the rent or make any changes to who is responsible for utilities in the home.

HAP Payments: Housing Assistance Payment cannot be made to the owner until the HAP contract and the owner/family lease have been completed and signed by the all parties. Owners/Landlords will receive their first check based on the effective day of the HAP Contract. (this could be a prorated amount) Following monthly payments will be mailed to the owner on the first day of the month as payment for that month.

Family's Contribution: It is the responsibility of the family to pay its portion of the rent to the owner on time. If the family occupies the unit before the effective date of the HAP Contract, the family is responsible for the full amount of the rent up to the effective date of when the HAP Contract begins.

Security Deposits: The owner may collect a security deposit that is equivalent to private market practice. The family is responsible for paying security deposits.

INTERESTED IN BECOMING A HCV LANDLORD?

Becoming a HCV landlord is an easy process. Simply select a resident that is a participant of our HCV program. At that point we begin the Leasing Steps!

Have a vacant unit? The EPHA would be happy to list your unit on our vacancy list. This list is compiled as a courtesy to our Landlord participants in an effort to assist in maintaining a low vacancy rate for your properties.

As a landlord participant we only require you to complete a Owner information form and an IRS W-9 Form.

1. Housing Choice Voucher Program

A. The public housing agency (PHA) has determined that the above named family (item 5) is eligible to participate in the housing choice voucher program. Under this program, the family chooses a decent, safe and sanitary unit to live in. If the owner agrees to lease the unit to the family under the housing choice voucher program, and if the PHA approves the unit, the PHA will enter into a housing assistance payments (HAP) contract with the owner to make monthly payments to the owner to help the family pay the rent.

B. The PHA determines the amount of the monthly housing assistance payment to be paid to the owner. Generally, the monthly housing assistance payment by the PHA is the difference between the applicable payment standard and 30 percent of monthly adjusted family income. In determining the maximum initial housing assistance payment for the family, the PHA will use the payment standard in effect on the date the tenancy is approved by the PHA. The family may choose to rent a unit for more than the payment standard, but this choice does not change the amount of the PHA's assistance payment. The actual amount of the PHA's assistance payment will be determined using the gross rent for the unit selected by the family.

2. Voucher

A. When issuing this voucher the PHA expects that if the family finds an approvable unit, the PHA will have the money available to enter into a HAP contract with the owner. However, the PHA is under no obligation to the family, to any owner, or to any other person, to approve a tenancy. The PHA does not have any liability to any party by the issuance of this voucher.

B. The voucher does not give the family any right to participate in the PHA's housing choice voucher program. The family becomes a participant in the PHA's housing choice voucher program when the HAP contract between the PHA and the owner takes effect.

C. During the initial or any extended term of this voucher, the PHA may require the family to report progress in leasing a unit at such intervals and times as determined by the PHA.

3. PHA Approval or Disapproval of Unit or Lease

A. When the family finds a suitable unit where the owner is willing to participate in the program, the family must give the PHA the request for tenancy approval (on the form supplied by the PHA), signed by the owner and the family, and a copy of the lease, including the HUD-prescribed tenancy addendum. **Note: Both documents must be given to the PHA no later than the expiration date stated in item 3 or 4 on top of page one of this voucher.**

B. The family must submit these documents in the manner that is required by the PHA. PHA policy may prohibit the family from submitting more than one request for tenancy approval at a time.

C. The lease must include, word-for-word, all provisions of the tenancy addendum required by HUD and supplied by the PHA. This is done by adding the HUD tenancy addendum to the lease used by the owner. If there is a difference between any provisions of the HUD tenancy addendum and any provisions of the owner's lease, the provisions of the HUD tenancy addendum shall control.

- D. After receiving the request for tenancy approval and a copy of the lease, the PHA will inspect the unit. The PHA may not give approval for the family to lease the unit or execute the HAP contract until the PHA has determined that all the following program requirements are met: the unit is eligible; the unit has been inspected by the PHA and passes the housing quality standards (HQS); the rent is reasonable; and the landlord and tenant have executed the lease including the HUD-prescribed tenancy addendum.
 - E. If the PHA approves the unit, the PHA will notify the family and the owner, and will furnish two copies of the HAP contract to the owner.
 1. The owner and the family must execute the lease.
 2. The owner must sign both copies of the HAP contract and must furnish to the PHA a copy of the executed lease and both copies of the executed HAP contract.
 3. The PHA will execute the HAP contract and return an executed copy to the owner.
 - F. If the PHA determines that the unit or lease cannot be approved for any reason, the PHA will notify the owner and the family that:
 1. The proposed unit or lease is disapproved for specified reasons, and
 2. If the conditions requiring disapproval are remedied to the satisfaction of the PHA on or before the date specified by the PHA, the unit or lease will be approved.
- 4. Obligations of the Family**
- A. When the family's unit is approved and the HAP contract is executed, the family must follow the rules listed below in order to continue participating in the housing choice voucher program.
 - B. The family must:
 1. Supply any information that the PHA or HUD determines to be necessary including evidence of citizenship or eligible immigration status, and information for use in a regularly scheduled reexamination or interim reexamination of family income and composition.
 2. Disclose and verify social security numbers and sign and submit consent forms for obtaining information.
 3. Supply any information requested by the PHA to verify that the family is living in the unit or information related to family absence from the unit.
 4. Promptly notify the PHA in writing when the family is away from the unit for an extended period of time in accordance with PHA policies.
 5. Allow the PHA to inspect the unit at reasonable times and after reasonable notice.
 6. Notify the PHA and the owner in writing before moving out of the unit or terminating the lease.
 7. Use the assisted unit for residence by the family. The unit must be the family's only residence.
 8. Promptly notify the PHA in writing of the birth, adoption, or court-awarded custody of a child.
 9. Request PHA written approval to add any other family member as an occupant of the unit.
 10. Promptly notify the PHA in writing if any family member no longer lives in the unit. Give the PHA a copy of any owner eviction notice.
 11. Pay utility bills and provide and maintain any appliances that the owner is not required to provide under the lease.
 - C. Any information the family supplies must be true and complete.
 - D. The family (including each family member) must not:
 1. Own or have any interest in the unit (other than in a cooperative, or the owner of a manufactured home leasing a manufactured home space).
 2. Commit any serious or repeated violation of the lease.
 3. Commit fraud, bribery or any other corrupt or criminal act in connection with the program.
 4. Engage in drug-related criminal activity or violent criminal activity or other criminal activity that threatens the health, safety or right to peaceful enjoyment of other residents and persons residing in the immediate vicinity of the premises.
 5. Sublease or let the unit or assign the lease or transfer the unit.
 6. Receive housing choice voucher program housing assistance while receiving another housing subsidy, for the same unit or a different unit under any other Federal, State or local housing assistance program.
 7. Damage the unit or premises (other than damage from ordinary wear and tear) or permit any guest to damage the unit or premises.
 8. Receive housing choice voucher program housing assistance while residing in a unit owned by a parent, child, grandparent, grandchild, sister or brother of any member of the family, unless the PHA has determined (and has notified the owner and the family of such determination) that approving rental of the unit, notwithstanding such relationship, would provide reasonable accommodation for a family member who is a person with disabilities.
 9. Engage in abuse of alcohol in a way that threatens the health, safety or right to peaceful enjoyment of the other residents and persons residing in the immediate vicinity of the premises.
- 5. Illegal Discrimination**
- If the family has reason to believe that, in its search for suitable housing, it has been discriminated against on the basis of age, race, color, religion, sex, disability, national origin, or familial status, the family may file a housing discrimination complaint with any HUD Field Office in person, by mail, or by telephone. The PHA will give the family information on how to fill out and file a complaint.
- 6. Expiration and Extension of Voucher**
- The voucher will expire on the date stated in item 3 on the top of page one of this voucher unless the family requests an extension in writing and the PHA grants a written extension of the voucher in which case the voucher will expire on the date stated in item 4. At its discretion, the PHA may grant a family's request for one or more extensions of the initial term.

The main regulation for this program is 24 Code of Federal Regulations Part 982.

Language that prohibits the owner from collecting a security deposit in excess of private market practice, or in excess of amounts charged by the owner to unassisted tenants. Such a prohibition must be added to Part A of the HAP contract.

Language that defines when the housing assistance payment by the PHA is deemed received by the owner (e.g., upon mailing by the PHA or actual receipt by the owner). Such language must be added to Part A of the HAP contract.

To prepare the HAP contract, fill in all contract information in Part A of the contract. Part A must then be executed by the owner and the PHA.

Part B of HAP Contract: Body of Contract

1. Purpose

- a. This is a HAP contract between the PHA and the owner. The HAP contract is entered to provide assistance for the family under the Section 8 voucher program (see HUD program regulations at 24 Code of Federal Regulations Part 982).
- b. The HAP contract only applies to the household and contract unit specified in Part A of the HAP contract.
- c. During the HAP contract term, the PHA will pay housing assistance payments to the owner in accordance with the HAP contract.
- d. The family will reside in the contract unit with assistance under the Section 8 voucher program. The housing assistance payments by the PHA assist the tenant to lease the contract unit from the owner for occupancy by the family.

2. Lease of Contract Unit

- a. The owner has leased the contract unit to the tenant for occupancy by the family with assistance under the Section 8 voucher program.
- b. The PHA has approved leasing of the unit in accordance with requirements of the Section 8 voucher program.
- c. The lease for the contract unit must include word-for-word all provisions of the tenancy addendum required by HUD (Part C of the HAP contract).
- d. The owner certifies that:
 - (1) The owner and the tenant have entered into a lease of the contract unit that includes all provisions of the tenancy addendum.
 - (2) The lease is in a standard form that is used in the locality by the owner and that is generally used for other unassisted tenants in the premises.
 - (3) The lease is consistent with State and local law.
- e. The owner is responsible for screening the family's behavior or suitability for tenancy. The PHA is not responsible for such screening. The PHA has no liability or responsibility to the owner or other persons for the family's behavior or the family's conduct in tenancy.

3. Maintenance, Utilities, and Other Services

- a. The owner must maintain the contract unit and premises in accordance with the housing quality standards (HQS).
- b. The owner must provide all utilities needed to comply with the HQS.
- c. If the owner does not maintain the contract unit in accordance with the HQS, or fails to provide all utilities needed to comply with the HQS, the PHA may exercise any available remedies. PHA remedies

for such breach include recovery of overpayments, suspension of housing assistance payments, abatement or other reduction of housing assistance payments, termination of housing assistance payments, and termination of the HAP contract. The PHA may not exercise such remedies against the owner because of an HQS breach for which the family is responsible, and that is not caused by the owner.

- d. The PHA shall not make any housing assistance payments if the contract unit does not meet the HQS, unless the owner corrects the defect within the period specified by the PHA and the PHA verifies the correction. If a defect is life threatening, the owner must correct the defect within no more than 24 hours. For other defects, the owner must correct the defect within the period specified by the PHA.
- e. The PHA may inspect the contract unit and premises at such times as the PHA determines necessary, to ensure that the unit is in accordance with the HQS.
- f. The PHA must notify the owner of any HQS defects shown by the inspection.
- g. The owner must provide all housing services as agreed to in the lease.

4. Term of HAP Contract

- a. **Relation to lease term.** The term of the HAP contract begins on the first day of the initial term of the lease, and terminates on the last day of the term of the lease (including the initial lease term and any extensions).
- b. When HAP contract terminates.
 - (1) The HAP contract terminates automatically if the lease is terminated by the owner or the tenant.
 - (2) The PHA may terminate program assistance for the family for any grounds authorized in accordance with HUD requirements. If the PHA terminates program assistance for the family, the HAP contract terminates automatically.
 - (3) If the family moves from the contract unit, the HAP contract terminates automatically.
 - (4) The HAP contract terminates automatically 180 calendar days after the last housing assistance payment to the owner.
 - (5) The PHA may terminate the HAP contract if the PHA determines, in accordance with HUD requirements, that available program funding is not sufficient to support continued assistance for families in the program.
 - (6) The HAP contract terminates automatically upon the death of a single member household, including single member households with a live-in aide.

- (7) The PHA may terminate the HAP contract if the PHA determines that the contract unit does not provide adequate space in accordance with the HQS because of an increase in family size or a change in family composition.
- (8) If the family breaks up, the PHA may terminate the HAP contract, or may continue housing assistance payments on behalf of family members who remain in the contract unit.
- (9) The PHA may terminate the HAP contract if the PHA determines that the unit does not meet all requirements of the HQS, or determines that the owner has otherwise breached the HAP contract.

5. Provision and Payment for Utilities and Appliances

- a. The lease must specify what utilities are to be provided or paid by the owner or the tenant.
- b. The lease must specify what appliances are to be provided or paid by the owner or the tenant.
- c. Part A of the HAP contract specifies what utilities and appliances are to be provided or paid by the owner or the tenant. The lease shall be consistent with the HAP contract.

6. Rent to Owner: Reasonable Rent

- a. During the HAP contract term, the rent to owner may at no time exceed the reasonable rent for the contract unit as most recently determined or redetermined by the PHA in accordance with HUD requirements.
- b. The PHA must determine whether the rent to owner is reasonable in comparison to rent for other comparable unassisted units. To make this determination, the PHA must consider:
 - (1) The location, quality, size, unit type, and age of the contract unit; and
 - (2) Any amenities, housing services, maintenance and utilities provided and paid by the owner.
- c. The PHA must redetermine the reasonable rent when required in accordance with HUD requirements. The PHA may redetermine the reasonable rent at any time.
- d. During the HAP contract term, the rent to owner may not exceed rent charged by the owner for comparable unassisted units in the premises. The owner must give the PHA any information requested by the PHA on rents charged by the owner for other units in the premises or elsewhere.

7. PHA Payment to Owner

- a. When paid
 - (1) During the term of the HAP contract, the PHA must make monthly housing assistance payments to the owner on behalf of the family at the beginning of each month.
 - (2) The PHA must pay housing assistance payments promptly when due to the owner.
 - (3) If housing assistance payments are not paid promptly when due after the first two calendar months of the HAP contract term, the PHA shall pay the owner penalties if all of the following circumstances apply: (i) Such penalties are in accordance with generally accepted practices and law, as applicable in the local housing market, governing penalties for late payment of rent by a

tenant; (ii) It is the owner's practice to charge such penalties for assisted and unassisted tenants; and (iii) The owner also charges such penalties against the tenant for late payment of family rent to owner. However, the PHA shall not be obligated to pay any late payment penalty if HUD determines that late payment by the PHA is due to factors beyond the PHA's control. Moreover, the PHA shall not be obligated to pay any late payment penalty if housing assistance payments by the PHA are delayed or denied as a remedy for owner breach of the HAP contract (including any of the following PHA remedies: recovery of overpayments, suspension of housing assistance payments, abatement or reduction of housing assistance payments, termination of housing assistance payments and termination of the contract).

- (4) Housing assistance payments shall only be paid to the owner while the family is residing in the contract unit during the term of the HAP contract. The PHA shall not pay a housing assistance payment to the owner for any month after the month when the family moves out.

- b. **Owner compliance with HAP contract.** Unless the owner has complied with all provisions of the HAP contract, the owner does not have a right to receive housing assistance payments under the HAP contract.

c. Amount of PHA payment to owner

- (1) The amount of the monthly PHA housing assistance payment to the owner shall be determined by the PHA in accordance with HUD requirements for a tenancy under the voucher program.
- (2) The amount of the PHA housing assistance payment is subject to change during the HAP contract term in accordance with HUD requirements. The PHA must notify the family and the owner of any changes in the amount of the housing assistance payment.
- (3) The housing assistance payment for the first month of the HAP contract term shall be prorated for a partial month.

- d. **Application of payment.** The monthly housing assistance payment shall be credited against the monthly rent to owner for the contract unit.

e. Limit of PHA responsibility.

- (1) The PHA is only responsible for making housing assistance payments to the owner in accordance with the HAP contract and HUD requirements for a tenancy under the voucher program.
- (2) The PHA shall not pay any portion of the rent to owner in excess of the housing assistance payment. The PHA shall not pay any other claim by the owner against the family.

- f. **Overpayment to owner.** If the PHA determines that the owner is not entitled to the housing assistance payment or any part of it, the PHA, in addition to other remedies, may deduct the amount of the overpayment from any amounts due the owner (including amounts due under any other Section 8 assistance contract).

8. Owner Certification

During the term of this contract, the owner certifies that:

- a. The owner is maintaining the contract unit and premises in accordance with the HQS.

- a. The owner must not discriminate against any person because of race, color, religion, sex, national origin, age, familial status, or disability in connection with the HAP contract.

The notice by the PHA to the owner may require the owner to take corrective action, as verified or determined by the PHA, by a deadline prescribed in the notice.

- e. Even if the family continues to live in the contract unit, the PHA may exercise any rights and remedies for owner breach of the HAP contract.

- a. The family is responsible for paying the owner any portion of the rent to owner that is not covered by the PHA housing assistance payment.
- b. Each month, the PHA will make a housing assistance payment to the owner on behalf of the family in accordance with the HAP contract. The amount of the monthly housing assistance payment will be determined by the PHA in accordance with HUD requirements for a tenancy under the Section 8 voucher program.
- c. The monthly housing assistance payment shall be credited against the monthly rent to owner for the contract unit.
- d. The tenant is not responsible for paying the portion of rent to owner covered by the PHA housing assistance payment under the HAP contract between the owner and the PHA. A PHA failure to pay the housing assistance payment to the owner is not a violation of the lease. The owner may not terminate the tenancy for nonpayment of the PHA housing assistance payment.
- e. The owner may not charge or accept, from the family or from any other source, any payment for rent of the unit in addition to the rent to owner. Rent to owner includes all housing services, maintenance, utilities and appliances to be provided and paid by the owner in accordance with the lease.
- f. The owner must immediately return any excess rent payment to the tenant.

6. Other Fees and Charges

- a. Rent to owner does not include cost of any meals or supportive services or furniture which may be provided by the owner.
- b. The owner may not require the tenant or family members to pay charges for any meals or supportive services or furniture which may be provided by the owner. Nonpayment of any such charges is not grounds for termination of tenancy.
- c. The owner may not charge the tenant extra amounts for items customarily included in rent to owner in the locality, or provided at no additional cost to unsubsidized tenants in the premises.

7. Maintenance, Utilities, and Other Services

- a. **Maintenance**

- (1) The owner must maintain the unit and premises in accordance with the HQS.
- (2) Maintenance and replacement (including redecoration) must be in accordance with the standard practice for the building concerned as established by the owner.

b Utilities and appliances

- (1) The owner must provide all utilities needed to comply with the HQS.
- (2) The owner is not responsible for a breach of the HQS caused by the tenant's failure to:
 - (a) Pay for any utilities that are to be paid by the tenant.
 - (b) Provide and maintain any appliances that are to be provided by the tenant.

c. Family damage. The owner is not responsible for a breach of the HQS because of damages beyond normal wear and tear caused by any member of the household or by a guest.

d Housing services. The owner must provide all housing services as agreed to in the lease.

8. Termination of Tenancy by Owner

a. Requirements. The owner may only terminate the tenancy in accordance with the lease and HUD requirements.

b Grounds. During the term of the lease (the initial term of the lease or any extension term), the owner may only terminate the tenancy because of:

- (1) Serious or repeated violation of the lease;
- (2) Violation of Federal, State, or local law that imposes obligations on the tenant in connection with the occupancy or use of the unit and the premises;
- (3) Criminal activity or alcohol abuse (as provided in paragraph c); or
- (4) Other good cause (as provided in paragraph d).

c Criminal activity or alcohol abuse.

- (1) The owner may terminate the tenancy during the term of the lease if any member of the household, a guest or another person under a resident's control commits any of the following types of criminal activity:
 - (a) Any criminal activity that threatens the health or safety of, or the right to peaceful enjoyment of the premises by, other residents (including property management staff residing on the premises);
 - (b) Any criminal activity that threatens the health or safety of, or the right to peaceful enjoyment of their residences by, persons residing in the immediate vicinity of the premises;
 - (c) Any violent criminal activity on or near the premises; or
 - (d) Any drug-related criminal activity on or near the premises.

(2) The owner may terminate the tenancy during the term of the lease if any member of the household is:

- (a) Fleeing to avoid prosecution, or custody or confinement after conviction, for a crime, or attempt to commit a crime, that is a felony under the laws of the place from which the individual flees, or that, in the case of the State of New Jersey, is a high misdemeanor; or
- (b) Violating a condition of probation or parole under Federal or State law.

(3) The owner may terminate the tenancy for criminal activity by a household member in accordance with this section if the owner determines that the household member has committed the criminal activity, regardless of whether the household member has been arrested or convicted for such activity.

(4) The owner may terminate the tenancy during the term of the lease if any member of the household has engaged in abuse of alcohol that threatens the health, safety or right to peaceful enjoyment of the premises by other residents.

d Other good cause for termination of tenancy

- (1) During the initial lease term, other good cause for termination of tenancy must be something the family did or failed to do.
- (2) During the initial lease term or during any extension term, other good cause may include:
 - (a) Disturbance of neighbors,
 - (b) Destruction of property, or
 - (c) Living or housekeeping habits that cause damage to the unit or premises.
- (3) After the initial lease term, such good cause may include:
 - (a) The tenant's failure to accept the owner's offer of a new lease or revision;
 - (b) The owner's desire to use the unit for personal or family use or for a purpose other than use as a residential rental unit; or
 - (c) A business or economic reason for termination of the tenancy (such as sale of the property, renovation of the unit, the owner's desire to rent the unit for a higher rent).
- (5) The examples of other good cause in this paragraph do not preempt any State or local laws to the contrary.
- (6) In the case of an owner who is an immediate successor in interest pursuant to foreclosure during the term of the lease, requiring the tenant to vacate the property prior to sale shall not constitute other good cause, except that the owner may terminate the tenancy effective on the date of transfer of the unit to the owner if the owner: (a) will occupy the unit as a primary residence; and (b) has provided the tenant a notice to vacate at least 90 days before the effective date of such notice. This

provision shall not affect any State or local law that provides for longer time periods or addition protections for tenants. **This provision will sunset on December 31, 2012 unless extended by law.**

e. Protections for Victims of Abuse.

- (1) An incident or incidents of actual or threatened domestic violence, dating violence, or stalking will not be construed as serious or repeated violations of the lease or other "good cause" for termination of the assistance, tenancy, or occupancy rights of such a victim.
- (2) Criminal activity directly relating to abuse, engaged in by a member of a tenant's household or any guest or other person under the tenant's control, shall not be cause for termination of assistance, tenancy, or occupancy rights if the tenant or an immediate member of the tenant's family is the victim or threatened victim of domestic violence, dating violence, or stalking.
- (3) Notwithstanding any restrictions on admission, occupancy, or terminations of occupancy or assistance, or any Federal, State or local law to the contrary, a PHA, owner or manager may "bifurcate" a lease, or otherwise remove a household member from a lease, without regard to whether a household member is a signatory to the lease, in order to evict, remove, terminate occupancy rights, or terminate assistance to any individual who is a tenant or lawful occupant and who engages in criminal acts of physical violence against family members or others. This action may be taken without evicting, removing, terminating assistance to, or otherwise penalizing the victim of the violence who is also a tenant or lawful occupant. Such eviction, removal, termination of occupancy rights, or termination of assistance shall be effected in accordance with the procedures prescribed by Federal, State, and local law for the termination of leases or assistance under the housing choice voucher program.
- (4) Nothing in this section may be construed to limit the authority of a public housing agency, owner, or manager, when notified, to honor court orders addressing rights of access or control of the property, including civil protection orders issued to protect the victim and issued to address the distribution or possession of property among the household members in cases where a family breaks up.
- (5) Nothing in this section limits any otherwise available authority of an owner or manager to evict or the public housing agency to terminate assistance to a tenant for any violation of a lease not premised on the act or acts of violence in question against the tenant or a member of the tenant's household, provided that the owner, manager, or public housing agency does not subject an individual who is or has been a victim of domestic violence, dating violence, or stalking to a

more demanding standard than other tenants in determining whether to evict or terminate.

- (6) Nothing in this section may be construed to limit the authority of an owner or manager to evict, or the public housing agency to terminate assistance, to any tenant if the owner, manager, or public housing agency can demonstrate an actual and imminent threat to other tenants or those employed at or providing service to the property if the tenant is not evicted or terminated from assistance.
- (7) Nothing in this section shall be construed to supersede any provision of any Federal, State, or local law that provides greater protection than this section for victims of domestic violence, dating violence, or stalking.

f. Eviction by court action. The owner may only evict the tenant by a court action.

g. Owner notice of grounds

- (1) At or before the beginning of a court action to evict the tenant, the owner must give the tenant a notice that specifies the grounds for termination of tenancy. The notice may be included in or combined with any owner eviction notice.
- (2) The owner must give the PHA a copy of any owner eviction notice at the same time the owner notifies the tenant.
- (3) Eviction notice means a notice to vacate, or a complaint or other initial pleading used to begin an eviction action under State or local law.

9. Lease: Relation to HAP Contract

If the HAP contract terminates for any reason, the lease terminates automatically.

10. PHA Termination of Assistance

The PHA may terminate program assistance for the family for any grounds authorized in accordance with HUD requirements. If the PHA terminates program assistance for the family, the lease terminates automatically.

11. Family Move Out

The tenant must notify the PHA and the owner before the family moves out of the unit.

12. Security Deposit

- a. The owner may collect a security deposit from the tenant. (However, the PHA may prohibit the owner from collecting a security deposit in excess of private market practice, or in excess of amounts charged by the owner to unassisted tenants. Any such PHA-required restriction must be specified in the HAP contract.)
- b. When the family moves out of the contract unit, the owner, subject to State and local law, may use the security deposit, including any interest on the deposit, as reimbursement for any unpaid rent payable by the tenant, any damages to the unit or any other amounts that the tenant owes under the lease.

- c. The owner must give the tenant a list of all items charged against the security deposit, and the amount of each item. After deducting the amount, if any, used to reimburse the owner, the owner must promptly refund the full amount of the unused balance to the tenant.
- d. If the security deposit is not sufficient to cover amounts the tenant owes under the lease, the owner may collect the balance from the tenant.

13. Prohibition of Discrimination

In accordance with applicable equal opportunity statutes, Executive Orders, and regulations, the owner must not discriminate against any person because of race, color, religion, sex, national origin, age, familial status or disability in connection with the lease.

14. Conflict with Other Provisions of Lease

- a. The terms of the tenancy addendum are prescribed by HUD in accordance with Federal law and regulation, as a condition for Federal assistance to the tenant and tenant's family under the Section 8 voucher program.
- b. In case of any conflict between the provisions of the tenancy addendum as required by HUD, and any other provisions of the lease or any other agreement between the owner and the tenant, the requirements of the HUD-required tenancy addendum shall control.

15. Changes in Lease or Rent

- a. The tenant and the owner may not make any change in the tenancy addendum. However, if the tenant and the owner agree to any other changes in the lease, such changes must be in writing, and the owner must immediately give the PHA a copy of such changes. The lease, including any changes, must be in accordance with the requirements of the tenancy addendum.
- b. In the following cases, tenant-based assistance shall not be continued unless the PHA has approved a new tenancy in accordance with program requirements and has executed a new HAP contract with the owner:
 - (1) If there are any changes in lease requirements governing tenant or owner responsibilities for utilities or appliances;
 - (2) If there are any changes in lease provisions governing the term of the lease;
 - (3) If the family moves to a new unit, even if the unit is in the same building or complex.
- c. PHA approval of the tenancy, and execution of a new HAP contract, are not required for agreed changes in the lease other than as specified in paragraph b.
- d. The owner must notify the PHA of any changes in the amount of the rent to owner at least sixty days before any such changes go into effect, and the amount of the rent to owner following any such agreed change may not exceed the reasonable rent for the unit as most recently determined or redetermined by the PHA in accordance with HUD requirements.

Any notice under the lease by the tenant to the owner or by the owner to the tenant must be in writing.

FACT SHEET

EPA and HUD Move to Protect Children from Lead-Based Paint Poisoning; Disclosure of Lead-Based Paint Hazards in Housing

SUMMARY

The Environmental Protection Agency (EPA) and the Department of Housing and Urban Development (HUD) are announcing efforts to ensure that the public receives the information necessary to prevent lead poisoning in homes that may contain lead-based paint hazards. Beginning this fall, most home buyers and renters will receive known information on lead-based paint and lead-based paint hazards during sales and rentals of housing built before 1978. Buyers and renters will receive specific information on lead-based paint in the housing as well as a Federal pamphlet with practical, low-cost tips on identifying and controlling lead-based paint hazards. Sellers, landlords, and their agents will be responsible for providing this information to the buyer or renter before sale or lease.

LEAD-BASED PAINT IN HOUSING

Approximately three-quarters of the nation's housing stock built before 1978 (approximately 64 million dwellings) contains some lead-based paint. When properly maintained and managed, this paint poses little risk. However, 1.7 million children have blood-lead levels above safe limits, mostly due to exposure to lead-based paint hazards.

EFFECTS OF LEAD POISONING

Lead poisoning can cause permanent damage to the brain and many other organs and causes reduced intelligence and behavioral problems. Lead can also cause abnormal fetal development in pregnant women.

BACKGROUND

To protect families from exposure to lead from paint, dust, and soil, Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also

known as Title X. Section 1018 of this law directed HUD and EPA to require the disclosure of known information on lead-based paint and lead-based paint hazards before the sale or lease of most housing built before 1978.

WHAT IS REQUIRED

Before ratification of a contract for housing sale or lease:

- Sellers and landlords must disclose known lead-based paint and lead-based paint hazards and provide available reports to buyers or renters.
- Sellers and landlords must give buyers and renters the pamphlet, developed by EPA, HUD, and the Consumer Product Safety Commission (CPSC), titled *Protect Your Family from Lead in Your Home*.
- Home buyers will get a 10-day period to conduct a lead-based paint inspection or risk assessment at their own expense. The rule gives the two parties flexibility to negotiate key terms of the evaluation.
- Sales contracts and leasing agreements must include certain notification and disclosure language.
- Sellers, lessors, and real estate agents share responsibility for ensuring compliance.

WHAT IS NOT REQUIRED

- This rule does not require any testing or removal of lead-based paint by sellers or landlords.
- This rule does not invalidate leasing and sales contracts.

TYPE OF HOUSING COVERED

Most private housing, public housing, Federally owned housing, and housing receiving Federal assistance are affected by this rule.

TYPE OF HOUSING NOT COVERED

- Housing built after 1977 (Congress chose not to cover post-1977 housing because the CPSC banned the use of lead-based paint for residential use in 1978).
- Zero-bedroom units, such as efficiencies, lofts, and dormitories.
- Leases for less than 100 days, such as vacation houses or short-term rentals.
- Housing for the elderly (unless children live there).
- Housing for the handicapped (unless children live there).

- Rental housing that has been inspected by a certified inspector and found to be free of lead-based paint.
- Foreclosure sales.

EFFECTIVE DATES

- For owners of more than 4 dwelling units, the effective date is September 6, 1996.
- For owners of 4 or fewer dwelling units, the effective date is December 6, 1996.

THOSE AFFECTED

The rule will help inform about 9 million renters and 3 million home buyers each year. The estimated cost associated with learning about the requirements, obtaining the pamphlet and other materials, and conducting disclosure activities is about \$6 per transaction.

EFFECT ON STATES AND LOCAL GOVERNMENTS

This rule should not impose additional burdens on states since it is a Federally administered and enforced requirement. Some state laws and regulations require the disclosure of lead hazards in housing. The Federal regulations will act as a complement to existing state requirements.

B. Summary Decision on the Unit

(to be completed after the form has been filled in)

Housing Quality Standard Pass or Fail

☐ 1. **Fail** If there are any checks under the column headed "Fail" the unit fails the minimum housing quality standards. Discuss with the owner the repairs noted that would be necessary to bring the unit up to the standard.

☐ 2. **Inconclusive** If there are no checks under the column headed "Fail" and there are checks under the column headed "Inconclusive," obtain additional information necessary for a decision (question owner or tenant as indicated in the item instructions given in this checklist). Once additional information is obtained, change the rating for the item and record the date of verification at the far right of the form.

☐ 3. **Pass** If neither (1) nor (2) above is checked, the unit passes the minimum housing quality standards. Any additional conditions described in the right hand column of the form should serve to (a) establish the precondition of the unit, (b) indicate possible additional areas to negotiate with the owner, (c) aid in assessing the reasonableness of the rent of the unit, and (d) aid the tenant in deciding among possible units to be rented. The tenant is responsible for deciding whether he or she finds these conditions acceptable.

Unit Size: Count the number of bedrooms for purposes of the FMR or Payment Standard. Record in the box provided.

Year Constructed: Enter from Line 5 of the Request for Tenancy Approval form. Record in the box provided.

Number of Sleeping Rooms: Count the number of rooms which could be used for sleeping, as identified on the checklist. Record in the box provided.

C. How to Fill Out This Checklist

Complete the checklist on the unit to be occupied (or currently occupied) by the tenant. Proceed through the inspection as follows:

Area	Checklist Category
room by room	1. Living Room
	2. Kitchen
	3. Bathroom
	4. All Other Rooms Used for Living
basement or utility room	5. All Secondary Rooms Not Used for Living
outside	6. Heating & Plumbing
overall	7. Building Exterior
	8. General Health & Safety

Each part of the checklist will be accompanied by an explanation of the item to be inspected.

Important: For each item numbered on the checklist, **check one box only** (e.g., check one box only for item 1.4 "Security" in the Living Room.)

In the space to the right of the description of the item, if the decision on the item is: "Fail" write what repairs are necessary; if "Inconclusive" write in details.

Also, if "Pass" but there are some conditions present that need to be brought to the attention of the owner or the tenant, write these in the space to the right.

If it is an annual inspection, record to the right of the form any repairs made since the last inspection. If possible, record reason for repair (e.g., ordinary maintenance, tenant damage).

If it is a complaint inspection, fill out only those checklist items for which complaint is lodged. Determine, if possible, tenant or owner cause.

Once the checklist has been completed, return to Part B (Summary Decision on the Unit).

Previous editions are obsolete

1. Living Room

1.1 Living Room Present

Note: If the unit is an efficiency apartment, consider the living room present.

1.2 Electricity

In order to qualify, the outlets must be present and properly installed in the baseboard, wall or floor of the room. Do not count a single duplex receptacle as two outlets, i.e., there must be **two** of these in the room, or **one** of these **plus a permanently installed ceiling or wall light fixture**.

Both the outlets and/or the light must be working. Usually, a room will have sufficient lights or electrical appliances plugged into outlets to determine workability. Be sure light fixture does not fail just because the bulb is burned out.

Do not count any of the following items or fixtures as outlets/fixtures: Table or floor lamps (these are **not** permanent light fixtures); ceiling lamps plugged into socket; extension cords.

If the electric service to the unit has been temporarily turned off check "Inconclusive." Contact owner or manager after inspection to verify that electricity functions properly when service is turned on. Record this information on the checklist.

1.3 Electrical Hazards

Examples of what this means: broken wiring; non-insulated wiring; frayed wiring; improper types of wiring, connections or insulation; wires lying in or located near standing water or other unsafe places; light fixture hanging from electric wiring without other firm support or fixture; missing cover plates on switches or outlets; badly cracked outlets; exposed fuse box connections; overloaded circuits evidenced by frequently "blown" fuses (ask the tenant).

Check "Inconclusive" if you are uncertain about severity of the problem and seek expert advice.

1.4 Security

"Accessible to outside" means: doors open to the outside or to a common public hall; windows accessible from the outside (e.g. basement and first floor); windows or doors leading onto a fire escape, porch or other outside place that can be reached from the ground.

"Lockable" means: the window or door has a properly working lock, or is nailed shut, or the window is not designed to be opened. A storm window lock that is working properly is acceptable. Windows that are nailed shut are acceptable only if these windows are not needed for ventilation or as an alternate exit in case of fire.

1.5 Window Condition

Rate the windows in the room (including windows in doors).

"Severe deterioration" means that the window no longer has the capacity to keep out the wind and the rain or is a cutting hazard. Examples are: missing or broken-out panes; dangerously loose cracked panes; windows that will not close; windows that, when closed, do not form a reasonably tight seal.

If more than one window in the room is in this condition, give details in the space provided on the right of the form.

If there is only "moderate deterioration" of the windows the item should "Pass." "Moderate deterioration" means windows which are reasonably weather-tight, but show evidence of some aging, abuse, or lack of repair. Signs of deterioration are: minor crack in window pane; splintered sill; signs of some minor rotting in the window frame or the window itself; window panes loose because of missing window putty. Also for deteriorated and peeling paint see 1.9. If more than one window is in this condition, give details in the space provided on the right of the form.

1.6 Ceiling Condition

"Unsound or hazardous" means the presence of such serious defects that either a potential exists for structural collapse or that large cracks or holes allow significant drafts to enter the unit. The condition includes: severe bulging or buckling; large holes; missing parts; falling or in danger of falling loose surface materials (other than paper or paint).

Pass ceilings that are basically sound but have some nonhazardous defects, including: small holes or cracks; missing or broken ceiling tiles; water stains; soiled surfaces; unpainted surfaces; peeling paint (for peeling paint see item 1.9).

1.7 Wall Condition

"Unsound or hazardous" includes: serious defects such that the structural safety of the building is threatened, such as severe buckling, bulging or leaning; damaged or loose structural members; large holes; air infiltration.

Pass walls that are basically sound but have some nonhazardous defects, including: small or shallow holes; cracks; loose or missing parts; unpainted surfaces; peeling paint (for peeling paint see item 1.9).

1.8 Floor Condition

"Unsound or hazardous" means the presence of such serious defects that a potential exists for structural collapse or other threats to safety (e.g., stripping) or large cracks or holes allow substantial drafts from below the floor. The condition includes: severe buckling or major movements under walking stress; damaged or missing parts.

Pass floors that are basically sound but have some nonhazardous defects, including: heavily worn or damaged floor surface (for example, scratches or gouges in surface, missing portions of tile or linoleum, previous water damage). If there is a floor covering, also note the condition, especially if badly worn or soiled. If there is a floor covering, including paint or sealant, also note the conditions, specially if badly worn, soiled or peeling (for peeling paint, see 1.9).

1.9 Lead-Based Paint

Housing Choice Voucher Units If the unit was built January 1, 1978, or after, no child under age six will occupy or currently occupies it, is a 0-BR, elderly or handicapped unit with no children under age six on the lease or expected, has been certified lead-based paint free by a certified lead-based paint inspector (no lead-based paint present or no lead-based paint present after removal of lead-based paint.), check NA and do not inspect painted surfaces.

This requirement applies to all painted surfaces (building components) within the unit. (Do not include tenant belongings). Surfaces to receive a visual assessment for deteriorated paint include walls, floors, ceilings, built in cabinets (sink bases), baseboards, doors, door frames, windows systems including mullions, sills, or frames and any other painted building component within the unit. Deteriorated paint includes any painted surface that is peeling, chipping, chalking, cracking, damaged or otherwise separated from the substrate.

All deteriorated paint surfaces **more than 2 sq. ft. in any one interior room or space, or more than 10% of the total surface area of an interior type of component with a small surface area (i.e., window sills, baseboards, and trim)** must be stabilized (corrected) in accordance with all safe work practice requirements and clearance is required. **If the deteriorated painted surface is less than 2 sq. ft. or less than 10% of the component, only stabilization is required. Clearance testing is not required.** Stabilization means removal of deteriorated paint, repair of the substrate, and application of a new protective coating or paint. Lead-Based Paint Owner Certification is required following stabilization activities, except for *de minimis level* repairs.

2. Kitchen

2.1 Kitchen Area Present

Note: A kitchen is an area used for preparation of meals. It may be either a separate room or an area of a larger room (for example, a kitchen area in an efficiency apartment).

2.2 - 2.9 Explanation for these items is the same as that provided for "Living Room" with the following modifications:

2.2 Electricity

Note: The requirement is that at least one outlet and one permanent light fixture are present and working.

2.5 Window Condition

Note: The absence of a window does not fail this item in the kitchen. If there is no window, check "Pass."

2.10 Stove or Range with Oven

Both an oven and a stove (or range) with top burners must be present and working. If either is missing and you know that the owner is responsible for supplying these appliances, check "Fail." Put check in "Inconclusive" column if the tenant is responsible for supplying the appliances and he or she has not yet moved in. Contact tenant or prospective tenant to gain verification that facility will be supplied and is in working condition. Hot plates are not acceptable substitutes for these facilities.

An oven is not working if it will not heat up. To be working a stove or range must have all burners working and knobs to turn them off and on. Under "working condition," also look for hazardous gas hook-ups evidenced by strong gas smells; these should fail. (Be sure that this condition is not confused with an unlit pilot light -a condition that should be noted, but does not fail.)

If both an oven and a stove or range are present, but the gas or electricity are turned off, check "Inconclusive." Contact owner or manager to get verification that facility works when gas is turned on. If both an oven and a stove or range are present and working, but defects exist, check "Pass" and note these to the right of the form. Possible defects are marked, dented, or scratched surfaces; cracked burner ring; limited size relative to family needs.

A microwave oven may be substituted for a tenant-supplied oven and stove (or range).

A microwave oven may be substituted for an owner-supplied oven and stove (or range) if the tenant agrees and microwave ovens are furnished instead of ovens and stoves (or ranges) to both subsidized and unsubsidized tenants in the building or premises.

2.11 Refrigerator

If no refrigerator is present, use the same criteria for marking either "Fail" or "Inconclusive" as were used for the oven and stove or range.

A refrigerator is not working if it will not maintain a temperature low enough to keep food from spoiling over a reasonable period of time. If the electricity is turned off, mark "Inconclusive." Contact owner (or tenant if unit is occupied) to get verification of working condition.

If the refrigerator is present and working but defects exist, note these to the right of the form. Possible minor defects include: broken or missing interior shelving; dented or scratched interior or exterior surfaces; minor deterioration of door seal; loose door handle.

2.12 Sink

If a permanently attached kitchen sink is not present in the kitchen or kitchen area, mark "Fail." A sink in a bathroom or a portable basin will not satisfy this requirement. A sink is not working unless it has running hot and cold water from the faucets and a properly connected and properly working drain (with a "gas trap"). In a vacant apartment, the hot water may have been turned off and there will be no hot water. Mark this "Inconclusive." Check with owner or manager to verify that hot water is available when service is turned on.

If a working sink has defects, note this to the right of the item. Possible minor defects include: dripping faucet; marked, dented, or scratched surface; slow drain; missing or broken drain stopper.

2.13 Space for Storage, Preparation, and Serving of Food

Some space must be available for the storage, preparation, and serving of food. If there is no built-in space for food storage and preparation, a table used for food preparation and a portable storage cabinet will satisfy the requirement. If there is no built-in space, and no room for a table and portable cabinet, check "Inconclusive" and discuss with the tenant. The tenant makes the final determination as to whether or not this space is acceptable.

If there are some minor defects, check "Pass" and make notes to the right. Possible defects include: marked, dented, or scratched surfaces; broken shelving or cabinet doors; broken drawers or cabinet hardware; limited size relative to family needs.

3. Bathroom

3.1 Bathroom Present

Most units have easily identifiable bathrooms (i.e., a separate room with toilet, washbasin and tub or shower). In some cases, however, you will encounter units with scattered bathroom facilities (i.e., toilet, washbasin and tub or shower located in separate parts of the unit). At a minimum, there must be an enclosure around the toilet. In this case, count the enclosure around the toilet as the bathroom and proceed with 3.2-3.9 below, with respect to this enclosure. If there is more than one bathroom that is normally used, rate the one that is in best condition for Part 3. If there is a second bathroom that is also used, complete Part 4 of the checklist for this room. (See Inspection Manual for additional notes on rating the second bathroom.)

3.2 - 3.9 Explanation for these items is the same as that provided for "Living Room" with the following modifications:

3.2 Electricity

Note: The requirement is that at least one permanent light fixture is present and working

3.3 Electrical Hazards

Note: In addition to the previously mentioned hazards, outlets that are located where water might splash or collect are considered an electrical hazard.

3.5 Window Condition

Note: The absence of a window does not fail this item in the bathroom (see item 3.13, Ventilation, for relevance of window with respect to ventilation). If there is no window, but a working vent system is present, check "Pass."

3.7 Wall Condition

Note: Include under nonhazardous defects (that would pass, but should be noted) the following: broken or loose tile; deteriorated grouting at tub/wall and tub/floor joints, or tiled surfaces; water stains.

3.8 Floor Condition

Note: Include under nonhazardous defects (that would pass, but should be noted) the following: missing floor tiles; water stains.

3.10 Flush Toilet in Enclosed Room in Unit

The toilet must be contained within the unit, be in proper operating condition, and be available for the exclusive use of the occupants of the unit (i.e., outhouses or facilities shared by occupants of other units are not acceptable). It must allow for privacy.

Not working means: the toilet is not connected to a water supply; it is not connected to a sewer drain; it is clogged; it does not have a trap; the connections, vents or traps are faulty to the extent that severe leakage of water or escape of gases occurs; the flushing mechanism does not function properly. If the water to the unit has been turned off, check "Inconclusive." Obtain verification from owner or manager that facility works properly when water is turned on.

Comment to the right of the form if the toilet is "present, exclusive, and working," but has the following types of defects: constant running; chipped or broken porcelain; slow draining.

If drain blockage is more serious and occurs further in the sewer line, causing backup, check item 7.6, "Fail," under the plumbing and heating part of the checklist. A sign of serious sewer blockage is the presence of numerous backed-up drains.

3.11 Fixed Wash Basin or Lavatory in Unit

The wash basin must be permanently installed (i.e., a portable wash basin does not satisfy the requirement). Also, a kitchen sink used to pass the requirements under Part 2 of the checklist (kitchen facilities) cannot also serve as the bathroom wash basin. The wash basin may be located separate from the other bathroom facilities (e.g., in a hallway).

Not working means: the wash basin is not connected to a system that will deliver hot and cold running water; it is not connected to a properly operating drain; the connectors (or vents or traps) are faulty to the extent that severe leakage of water or escape of sewer gases occurs. If the water to the unit or the hot water unit has been turned off, check "Inconclusive." Obtain verification from owner or manager that the system is in working condition.

Comment to the right of the form if the wash basin is "present and working," but has the following types of minor defects: insufficient water pressure; dripping faucets; minor leaks; cracked or chipped porcelain; slow drain (see discussion above under 3.10).

3.12 Tub or Shower in Unit

Not present means that neither a tub nor shower is present in the unit. Again, these facilities need not be in the same room with the rest of the bathroom facilities. They must, however, be private.

Not working covers the same requirements detailed above for wash basin (3.11).

Comment to the right of the form if the tub or shower is present and working, but has the following types of defects: dripping faucet; minor leaks; cracked porcelain; slow drain (see discussion under 3.10); absent or broken support rod for shower curtain.

3.13 Ventilation

Working vent systems include: ventilation shafts (non-mechanical vents) and electric fans. Electric vent fans must function when switch is turned on. (Make sure that any malfunctions are not due to the fan not being plugged in.) If electric current to the unit has not been turned on (and there is no operable window), check "Inconclusive." Obtain verification from owner or manager that system works. Note: exhaust vents must be vented to the outside, attic, or crawlspace.

4. Other Room Used for Living and Halls

Complete an "Other Room" checklist for as many "other rooms used for living" as are present in the unit and not already noted in Parts 1, 2, and 3 of the checklist. See the discussion below for definition of "used for living." Also complete an "Other Room" checklist for all entrance halls, corridors, and staircases that are located within the unit and are part of the area used for living. If a hall, entry and/or stairway are contiguous, rate them as a whole (i.e., as part of one space).

Additional forms for rating "Other Rooms" are provided in the check-list.

Definition of "used for living." Rooms "used for living" are areas of the unit that are walked through or lived in on a regular basis. Do not include rooms or other areas that have been permanently, or near permanently, closed off or areas that are infrequently entered. For example, do not include a utility room, attached shed, attached closed-in porch, basement, or garage if they are closed off from the main living area or are infrequently entered. Do include any of these areas if they are frequently used (e.g., a finished basement/play-room, a closed-in porch that is used as a bedroom during summer months). Occasional use of a washer or dryer in an otherwise unused room does not constitute regular use.

If the unit is vacant and you do not know the eventual use of a particular room, complete an "Other Room" checklist if there is any chance that the room will be used on a regular basis. If there is no chance that the room will be used on a regular basis, do not include it (e.g., an unfinished basement) since it will be checked under Part 5, All Secondary Rooms (Rooms not used for living).

4.1 Room Code and Room Location

Enter the appropriate room code given below:

Room Codes:

- 1 = Bedroom or any other room used for sleeping (regardless of type of room)
- 2 = Dining Room or Dining Area
- 3 = Second Living Room, Family Room, Den, Playroom, TV Room
- 4 = Entrance Halls, Corridors, Halls, Staircases
- 5 = Additional Bathroom (also check presence of sink trap and clogged toilet)
- 6 = Other

Room Location: Write on the line provided the location of the room with respect to the unit's width, length and floor level as if you were standing outside the unit facing the entrance to the unit:

right/left/center: record whether the room is situated to the right, left, or center of the unit.

front/rear/center: record whether the room is situated to the back, front or center of the unit.

floor level: identify the floor level on which the room is located.

If the unit is vacant, you may have some difficulty predicting the eventual use of a room. Before giving any room a code of 1 (bedroom), the room must meet all of the requirements for a "room used for sleeping" (see items 4.2 and 4.5).

4.2 - 4.9 Explanations of these items are the same as those provided for "Living Room" with the following modifications:

4.2 Electricity/Illumination

If the room code is not a "1," the room must have a means of natural or artificial illumination such as a permanent light fixture, wall outlet present, or light from a window in the room or near the room. If any required item is missing, check "Fail." If the electricity is turned off, check "Inconclusive."

4.5 Window Condition

Any room used for sleeping must have at least one window. If the windows in sleeping rooms are designed to be opened, at least one window must be operable. The minimum standards do not require a window in "other rooms." Therefore, if there is no window in another room not used for sleeping, check "Pass," and note "no window" in the area for comments.

4.6 Smoke Detectors

At least one battery-operated or hard-wired smoke detector must be present and working on each level of the unit, including the basement, but not the crawl spaces and unfinished attic.

Smoke detectors must be installed in accordance with and meet the requirements of the National Fire Protection Association Standard (NFPA) 74 (or its successor standards).

If the dwelling unit is occupied by any hearing-impaired person, smoke detectors must have an alarm system designed for hearing-impaired persons as specified in NFPA 74 (or successor standards).

If the unit was under HAP contract prior to April 24, 1993, owners who installed battery-operated or hard-wired smoke detectors in compliance with HUD's smoke detector requirements, including the regulations published on July 30, 1992 (57 FR 33846), will not be required subsequently to comply with any additional requirements mandated by NFPA 74 (i.e. the owner would not be required to install a smoke detector in a basement not used for living purposes, nor would the owner be required to change the location of the smoke detectors that have already been installed on the other floors of the unit). In this case, check "Pass" and note under comments.

Additional Notes

For staircases, the adequacy of light and condition of the stair rails and railings is covered under Part 8 of the checklist (General Health and Safety)

5. All Secondary Rooms (Rooms not used for living)

5. Secondary Rooms (Rooms not used for living)

If any room in the unit did not meet the requirements for "other room used for living" in Part 4, it is to be considered a "secondary room (not used for living)." Rate all of these rooms together (i.e., a single Part 5 checklist for all secondary rooms in the unit).

Inspection is required of the following two items since hazardous defects under these items could jeopardize the rest of the unit, even if present in rooms not used for living: 5.2 Security, 5.3 Electrical Hazards. Also, be observant of any other potentially hazardous features in these rooms and record under 5.4

5.1 None

If there are no "Secondary Rooms (rooms not used for living)," check "None" and go on to Part 6.

5.2 - 5.4 Explanations of these items is the same as those provided for "Living Room"

Additional Note

In recording "other potentially hazardous features," note (in the space provided) the means of access to the room with the hazard and check the box under "Inconclusive." Discuss the hazard with the HA inspection supervisor to determine "Pass" or "Fail." Include defects like: large holes in floor, walls or ceilings; evidence of structural collapse; windows in condition of severe deterioration; and deteriorated paint surfaces.

6. Building Exterior

6.1 Condition of Foundation

"Unsound or hazardous" means foundations with severe structural defects indicating the potential for structural collapse; or foundations that allow significant entry of ground water (for example, evidenced by flooding of basement).

6.2 Condition of Stairs, Rails, and Porches

"Unsound or hazardous" means: stairs, porches, balconies, or decks with severe structural defects; broken, rotting, or missing steps; absence of a handrail when there are extended lengths of steps (generally four or more consecutive steps); absence of or insecure railings around a porch or balcony which is approximately 30 inches or more above the ground.

6.3 Condition of Roof and Gutters

"Unsound and hazardous" means: The roof has serious defects such as serious buckling or sagging, indicating the potential of structural collapse; large holes or other defects that would result in significant air or water infiltration (in most cases severe exterior defects will be reflected in equally serious surface defects within the unit, e.g., buckling, water damage). The gutters, downspouts and soffits (area under the eaves) shows serious decay and have allowed the entry of significant air or water into the interior of the structure. Gutters and downspouts are, however, not required to pass. If the roof is not observable and there is no sign of interior water damage, check "Pass."

6.4 Condition of Exterior Surfaces

See definition above for roof, item 6.3.

6.5 Condition of Chimney

The chimney should not be seriously leaning or showing evidence of significant disintegration (i.e., many missing bricks).

6.6 Lead-Based Paint: Exterior Surfaces

Housing Choice Voucher Units If the unit was built January 1, 1978 or after, no child under age six will occupy or currently occupies, is a 0-BR, elderly or handicapped unit with no children under age six on the lease or expected, has been certified lead-based paint free by a certified lead-based paint inspector (no lead-based paint present or no lead-based paint present after removal of lead), check NA and do not inspect painted surfaces. Visual assessment for deteriorated paint applies to all exterior painted surfaces (building components) associated with the assisted unit including windows, window sills, exterior walls, floors, porches, railings, doors, decks, stairs, play areas, garages, fences or other areas if frequented by children under age six.

All deteriorated paint surfaces **more than 20 sq. ft. on exterior surfaces** must be stabilized (corrected) in accordance with all safe work practice requirements. **If the painted surface is less than 20 sq. ft., only stabilization is required. Clearance testing is not required.** Stabilization means removal of deteriorated paint, repair of the substrate, and application of a new protective coating or paint. Lead-Based Paint Owner Certification is required following stabilization activities except for *de minimis* level repairs.

6.7 Manufactured Homes: Tie Downs

Manufactured homes must be placed on a site in a stable manner and be free from hazards such as sliding and wind damage. Manufactured homes must be securely anchored by a tie down device which distributes and transfers the loads imposed by the unit to appropriate ground anchors so as to resist wind overturning and sliding, unless a variation has been approved by the HUD Field Office.

7. Heating and Plumbing

7.1 Adequacy of Heating Equipment

"Adequate heat" means that the heating system is capable of delivering enough heat to assure a healthy environment in the unit (appropriate to the climate). The HA is responsible for defining what constitutes a healthy living environment in the area of the country in which it operates. Local codes (city or state codes) should be instructive in arriving at a reasonable local definition. For example, for heat adequacy, local codes often require that the unit's heating facility be capable of maintaining a given temperature level during a designated time period. Portable electric room heaters or kitchen stoves or ranges with a built-in heat unit are not acceptable as a primary source of heat for units located in areas where climate conditions require regular heating.

"Directly or indirectly to all rooms used for living" means:

"Directly" means that each room used for living has a heat source (e.g., working radiator; working hot air register; baseboard heat)

"Indirectly" means that, if there is no heat source present in the room, heat can enter the room easily from a heated adjacent room (e.g. a dining room may not have a radiator, but would receive heat from the heated living room through a large open archway).

If the heating system in the unit works, but there is some question whether a room without a heat source would receive adequate indirect heat, check "Inconclusive" and verify adequacy from tenant or owner (e.g., unheated bedroom at the end of a long hallway).

How to determine the capability of the heating system: If the unit is occupied, usually the quickest way to determine the capability of the heating system over time is to question the tenant. If the unit is not occupied, or the tenant has not lived in the unit during the months when heat would be needed, check "Inclusive." It will be necessary to question the owner on this point after the inspection has been completed and, if possible, to question other tenants (if it is a multi-unit structure) about the adequacy of heat provided. Under some circumstances, the adequacy of heat can be determined by a simple comparison of the size of the heating system to the area to be heated. For example, a small permanently installed space heater in a living room is probably inadequate for heating anything larger than a relatively small apartment.

7.2 Safety of Heating Equipment

Examples of "unvented fuel burning space heaters" are: portable kerosene units; unvented open flame portable units.

"Other unsafe conditions" include: breakage or damage to heating system such that there is a potential for fire or other threats to safety; improper connection of flues allowing exhaust gases to enter the living area; improper installation of equipment (e.g., proximity of fuel tank to heat source, absence of safety devices); indications of improper use of equipment (e.g., evidence of heavy build-up of soot, creosote, or other substance in the chimney); disintegrating equipment; combustible materials near heat source or flue. See Inspection Manual for a more detailed discussion of the inspection of safety aspects of the heating systems.

If you are unable to gain access to the primary heating system in the unit check "Inconclusive." Contact the owner or manager for verification of safety of the system. If the system has passed a recent local inspection, check "Pass." This applies especially to units in which heat is provided by a large scale, complex central heating system that serves multiple units (e.g., a boiler in the basement of a large apartment building). In most cases, a large scale heating system for a multi-unit building will be subject to periodic safety inspections by a local public agency. Check with the owner or manager to determine the date and outcome of the last such inspection, or look for an inspection certificate posted on the heating system.

7.3 Ventilation and Adequacy of Cooling

If the tenant is present and has occupied the unit during the summer months, inquire about the adequacy of air flow. If the tenant is not present or has not occupied the unit during the summer months, test a sample of windows to see that they open (see Inspection Manual for instruction).

"Working cooling equipment" includes: central (fan) ventilation system; evaporative cooling system; room or central air conditioning.

Check "Inconclusive" if there are no operable windows and it is impossible, or inappropriate, to test whether a cooling system works. Check with other tenants in the building (in a multi-unit structure) and with the owner or manager for verification of the adequacy of ventilation and cooling.

7.4 Water Heater

"Location presents hazard" means that the gas or oil water heater is located in living areas or closets where safety hazards may exist (e.g., water heater located in very cluttered closet with cloth and paper items stacked against it). Gas water heaters in bedrooms or other living areas must have safety dividers or shields.

Water heaters must have a temperature-pressure relief valve and discharge line (directed toward the floor or outside of the living area) as a safeguard against build up of steam if the water heater malfunctions. If not, they are not properly equipped and shall fail.

To pass, gas or oil fired water heaters must be vented into a properly installed chimney or flue leading outside. Electric water heaters do not require venting.

If it is impossible to view the water heater, check "Inconclusive."

Obtain verification of safety of system from owner or manager.

Check "Pass" if the water heater has passed a local inspection. This applies primarily to hot water that is supplied by a large scale complex water heating system that serves multiple units (e.g., water heating system in large apartment building). Check in the same manner described for heating system safety, item 7.2, above.

7.5 Water Supply

If the structure is connected to a city or town water system, check

"Pass." If the structure has a private water supply (usually in rural areas) inquire into the nature of the supply (probably from the owner) and whether it is approvable by an appropriate public agency.

General note: If items 7.5, 7.6, or 7.7 are checked "Inconclusive," check with owner or manager for verification of adequacy.

7.6 Plumbing

"Major leaks" means that main water drain and feed pipes (often located in the basement) are seriously leaking. (Leaks present at specific facilities have already been evaluated under the checklist items for "Bathroom" and "Kitchen.")

"Corrosion" (causing serious and persistent levels of rust or contamination in the drinking water) can be determined by observing the color of the drinking water at several taps. Badly corroded pipes will produce noticeably brownish water. If the tenant is currently occupying the unit, he or she should be able to provide information about the persistence of this condition. (Make sure that the "rusty water" is not a temporary condition caused by city or town maintenance of main water lines.) See general note under 7.5.

7.7 Sewer Connection

If the structure is connected to the city or town sewer system, check "Pass." If the structure has its own private disposal system (e.g., septic field), inquire into the nature of the system and determine whether this type of system can meet appropriate health and safety regulations.

The following conditions constitute "evidence of sewer back up": strong sewer gas smell in the basement or outside of unit; numerous clogged or very slow drains; marshy areas outside of unit above septic field. See general note under 7.5.

8. General Health and Safety

8.1 Access to Unit

"Through another unit" means that access to the unit is only possible by means of passage through another dwelling unit.

8.2 Exits

"Acceptable fire exit" means that the building must have an alternative means of exit that meets local or State regulations in case of fire; this could include:

An openable window if the unit is on the first floor or second floor or easily accessible to the ground.

A back door opening on to a porch with a stairway leading to the ground.

Fire escape, fire ladder, or fire stairs.

"Blocked" means that the exit is not useable due to conditions such as debris, storage, door or window nailed shut, broken lock.

Important note: The HA has the final responsibility for deciding whether the type of emergency exit is acceptable, although the tenant should assist in making the decision.

8.3 Evidence of Infestation

"Presence of rats, or severe infestation by mice or vermin" (such as roaches) is evidenced by: rat holes; droppings; rat runs; numerous settings of rat poison. If the unit is occupied, ask the tenant,

8.4 Garbage and Debris

"Heavy accumulation" means large piles of trash and garbage, discarded furniture, and other debris (not temporarily stored awaiting removal) that might harbor rodents. This may occur inside the unit, in common areas, or outside. It usually means a level of accumulation beyond the capacity of an individual to pick up within an hour or two.

8.5 Refuse Disposal

"Adequate covered facilities" includes: trash cans with covers, garbage chutes, "dumpsters" (i.e., large scale refuse boxes with lids); trash bags (if approvable by local public agency). "Approvable by local public agency" means that the local Health and Sanitation Department (city, town or county) approves the type of facility in use. Note: During the period when the HA is setting up its inspection program, it will check with the local health and sanitation department to determine which types of facilities are acceptable and include this in the inspection requirements.

If the unit is vacant and there are no adequate covered facilities present, check "Inconclusive." Contact the owner or manager for verification of facilities provided when the unit is occupied.

8.6 Interior Stairs and Common Halls

"Loose, broken, or missing steps" should fail if they present a serious risk of tripping or falling.

A handrail is required on extended sections of stairs (generally four or more consecutive steps). A railing is required on unprotected heights such as around stairwells.

"Other hazards" would be conditions such as bare electrical wires and tripping hazards.

Housing Choice Voucher Units If the unit was built January 1, 1978, or after, no child under six will occupy or currently occupies it, is a 0-BR, elderly or handicapped unit with no children under six on the lease or expected, has been certified lead-based paint free by a certified lead-based paint inspector (no lead-based paint present or no lead-based paint present after removal of lead-based paint.), check NA and do not inspect painted surfaces.

This requirement applies to all painted surfaces (building components) within the unit. (Do not include tenant belongings). Surfaces to receive a visual assessment for deteriorated paint include walls, floors, ceilings, built in cabinets (sink bases), baseboards, doors, door frames, windows systems including

mullions, sills, or frames and any other painted building component within the unit. Deteriorated paint includes any painted surface that is peeling, chipping, chalking, cracking, damaged or otherwise separated from the substrate.

All deteriorated paint surfaces **more than 2 sq. ft. in any one interior room or space, or more than 10% of the total surface area of an interior type of component with a small surface area (i.e., window sills, baseboards, and trim)** must be stabilized (corrected) in accordance with all safe work practice requirements and clearance is required. **If the deteriorated painted surface is less than 2 sq. ft. or less than 10% of the component, only stabilization is required. Clearance testing is not required.** Stabilization means removal of deteriorated paint, repair of the substrate, and application of a new protective coating or paint. Lead-Based Paint Owner Certification is required following stabilization activities, except for *de minimis level* repairs.

8.7 Other Interior Hazards

Examples of other hazards might be: a broken bathroom fixture with a sharp edge in a location where it represents a hazard; a protruding nail in a doorway.

8.8 Elevators

Note: At the time the HA is setting up its inspection program, it will determine local licensing practices for elevators. Inspectors should then be aware of these practices in evaluating this item (e.g., check inspection date). If no elevator check "Not Applicable."

8.9 Interior Air Quality

If the inspector has any questions about whether an existing poor air quality condition should be considered dangerous, he or she should check with the local Health and Safety Department (city, town or county).

8.10 Site and Neighborhood Conditions

Examples of conditions that would "seriously and continuously endanger the health or safety of the residents" are:

other buildings on, or near the property, that pose serious hazards (e.g., dilapidated shed or garage with potential for structural collapse),
evidence of flooding or major drainage problems,
evidence of mud slides or large land settlement or collapse,
proximity to open sewage,
unprotected heights (cliffs, quarries, mines, sandpits),
fire hazards,
abnormal air pollution or smoke which continues throughout the year and is determined to seriously endanger health, and continuous or excessive vibration of vehicular traffic (if the unit is occupied, ask the tenant).

8.11 Lead-Based Paint: Owner Certification

If the owner is required to correct any lead-based paint hazards at the property including deteriorated paint or other hazards identified by a visual assessor, a certified lead-based paint risk assessor, or certified lead-based paint inspector, the PHA must obtain certification that the work has been done in accordance with all applicable requirements of 24 CFR Part 35. The Lead-Based Paint Owner Certification must be received by the PHA before the execution of the HAP contract or within the time period stated by the PHA in the owner HQS violation notice. Receipt of the completed and signed Lead-Based Paint Owner Certification signifies that all HQS lead-based paint requirements have been met and no re-inspection by the HQS inspector is required.
